Intelligent SMD Components Counter YX-881

## Intelligent SMD Components Counter YX-881

Intelligent YX-881 **without** Component lost detection function

### 【Features】

1. Two arms are retractable; Count speed adjustable; Counts all SMD taped components
2. Label Printer and scanner are optional items.
3. Intelligent automatic voice reader and reminder
4. No manual intervention is needed to the reel parts. Machine will stop automatically when no part is available, so no press is needed on Stop button. Machine will stop automatically when part conveyer runs out of part, so part will not be in short supply at any time.
5. Zero part shortage, zero overshoot, and zero error when issuing part.
6. High power, no noise when stopping the machine
7. Wide counting range with maximum 24-bit BUS and a number of up to 16777216. Suitable for extra-large SMD reel parts and non-SMD reel parts

8. Eight speeds are available from its governor for easy speed selection based on different tray sizes.
9. Real-time detection to predict Start or Stop in advance.
10. Traditional functions are included but further optimized and upgraded.
11. Both forward and backward counters are available for accurate part counting.

### 【 Application 】

- 1.Suitable for extra-large SMD reel parts and non-SMD reel parts
- 2.Reel diameter: assorted sizes are usable
- 3.Reel Width: 8, 10,12, 16, 24, 32, 44 ,56&72mm
- 4.Reel Pitch: 2, 4, 8, 10, 12, 16, 24, 32, 44,56&72mm

### 【 Option 】

- 1.Bar code printer
- 2.Bar code printer scanner

### 【 Specification 】

Electric Load	90W
Count Capacity	- 16777216~16777216pcs
Electric Power	AC110V(60HZ) / AC220V(50HZ)
Outer Dimension L×W×H(mm)	L490*W280*H280mm
Weight	10 Kg
