SMD Components Counter YX - 802

SMD Components Counter YX-802

YX-802 **with** Component lost detection function

【 Features 】

1. Equipped with Keyence sensor imported from Japan, able to detect if discharge tray is empty or not accurately for customers' more precise part-counting.
2. Reel derailment protection device from running is provided.
3. Two arms are retractable; Count speed adjustable; Counts all SMD taped components
4. Label Printer and scanner are optional items
5. Allows presetting the number of components for partial counts
6. Counts forward and backward

【 Application 】

1. SMD reel parts are all suitable
2. Reel diameter: assorted sizes are usable
3. Reel Width: 8, 10, 12, 16, 24, 32, 44, 56&72mm
4. Reel Pitch: 2, 4, 8, 10, 12, 16, 24, 32, 44, 56&72mm

【Option】

1. Bar code printer
2. Bar code printer scanner

【Specification】

Electric Load	30W
Count Capacity	-99999 ~ 99999
Electric Power	AC110V(60HZ) / AC220V(50HZ)
Outer Dimension L×W×H(mm)	L470*W300*H180mm
Weight	10 Kg
